<p><b>Timeline for this project:</b> We pride ourselves on our ability to deliver projects according to mutually agreed deadlines. We do not guarantee a completion date for any project. This usually depends on the speed of the client's feedback and the number of revisions required. And these below deadlines are of course dependent on the timely provision of all project content, imagery, data base access, required Api's. Any delay in provision of these items will result in postponement of the project deadline. On the rare occasion that we are unable to meet a deadline due to internal issues, we will do our best to inform you in advance, rather than when the project deadline is overdue. Project is planned to an agreed schedule. Non-adherence to this schedule by you may result in compromising final delivery deadlines. If this is likely to occur, the Ranglerz will advise you as soon as this becomes evident and suggest an alternative solution where feasible. This may incur additional costs. Overall project will take approximately <b>75 to 95 working days to design, develop &amp; deploy.</b></p>	<p><b>Deliverable</b></p> <ul style="list-style-type: none"> <li>} Handing over the Source Code of the project.</li> <li>} Handing over the used Files (Logo, images and other documents).</li> <li>} Handed over the User Manuel i.e., video tutorials</li> <li>} 45 days free support will be provided after the delivery of the project. Support includes guidance, error or bug sorting etc.</li> </ul> <p><b>Phase 1:</b> Create Channel and add you on Slack =&gt; Wire Frames =&gt; Flow Diagrams =&gt; User Interfaces/Layouts,</p> <p><b>Phase 2:</b> Front End Apps Designs (Beta link for Web Admin, APK for the Android App, IPA for the Apple App will be provided, so that you can track real time progress of the development),</p> <p><b>Phase 3:</b> Apps relations will be developed with Admin/Backend side,</p> <p><b>Phase 4:</b> Alpha/ Beta Testing</p> <p><b>Phase 5:</b> Launch to the original domain/host and Google Play Store &amp; Apple App Store etc.</p> <p><b>Phase 6:</b> Testing &amp; Support After the Deployment</p> <p><b>We are looking forward to building a long-term business relation with your esteemed company. We would be glad to assist you.</b></p>
